

The Fire and Ice Facial, also by iS Clinical, is famous for its instant brightening, smoothing and tightening of the skin. It is also known as "The Red Carpet Facial" in Hollywood, for obvious reasons! This intensive clinical treatment is designed to resurface the skin, reduce fine lines and wrinkles and deep clean blocked pores. Serums and creams with aromas of warm cinnamon and cool peppermint compliment precise combinations of two professional treatment masks. Perfect addition to your regular scheduled chemical peels or microdermabrasions (must be at least four weeks pre/post in between treatments)

The facial begins with the "fire" which is an intensive resurfacing masque. The masque is clinically formulated with 18% unbuffered glycolic acid, lactic acid, citric acid, malic acid, retinol, vitamin B3 and potent antioxidants, including green tea extracts. It has a cinnamon scent and work.

After the "fire" mask has completed its job, the designed to cool and soothe the skin. This hyaluronic acid, aloe vera gel, Japanese green extracts and rosemary extracts. The pampering leaves the skin glowing.

tingles a little on your face as it begins to

"ice" is applied. This is a rejuvenating mask intensively hydrating masque contains tea extracts, licorice extracts, grape seed part of the facial cools the initial "peel" and

The results of the Fire and Ice Facial? The skin will feel tight and firm, and usually have a glow. The skin may have a mild redness following the treatment, but it is temporary. There should be no scaling or downtime. The Fire and Ice Facial may be repeated at four-week intervals for a series of 6 facials until the desired clinical effect is achieved. With each additional treatment, you should see incremental gains in the overall appearance of the skin.
